### **Glen Frost appointed President of Americans Citizens Abroad Global Foundation (ACAGF)**

American Citizens Abroad Global Foundation (ACAGF), the sister educational and research organization to American Citizens Abroad (ACA) announced today that Glen Frost has been appointed to serve as President of American Citizens Abroad Global Foundation. Glen will also continue to serve as Associate Legal Counsel for both organizations. In these roles, he strives to promote the well-being of U.S. citizens abroad. Glen accomplishes this by working with the foundation to (1) identify critical issues and activities that impact Americans abroad; (2) analyze and develop information about these subjects; and (3) ensure that such information is provided to all affected parties—both individuals and governments—and widely disseminated otherwise. Glen is also the managing partner for Frost & Associates, LLC. He focuses his national and international practices on tax controversy and tax planning matters, business law matters, and estate planning matters and has been awarded Martindale-Hubbell’s AV Preeminent® Lawyer Rating. Glen earned his JD and LL.M. in Taxation from University of Baltimore School of Law. He is also a licensed Certified Public Accountant and Certified Financial Planner™.

ACAGF has been instrumental in its support of [ACA, Inc.’s advocacy efforts for tax reform](#) primarily through its research work, the development of revenue estimation and data sets for ACA’s Residency-based taxation approach to reforming the tax code for Americans overseas and in its hosting of [webcasts](#) to help educate the community on Congressman Holding’s “Tax Fairness for Americans Abroad Act” (TFAA) which was introduced in the 2018 Congress.

“We are very pleased that Glen will be serving as President of ACAGF. Glen brings with him the talent and knowledge needed to help drive our important research and educational work on behalf of Americans living and working overseas” said ACAGF Chairman, Charles Bruce.
