ACA members-only profile now offers online notary services

Washington, DC
April 19, 2017

For immediate release.

ACA member-only profile now offers access to Safedocs, a leading provider of online notarization services for US notarization needs. Safedocs enables US citizens abroad to connect with a Safedocs notary online to have access to US notary services.

“We often hear from members who have US notarization needs but are not located close to a US Embassy or Consulate in order to access these services.” said, Jonathan Lachowitz, Chairman of ACA, Inc. “An American living overseas who is managing the sale of property in the US will no doubt need to have documents notarized in the process. Having access to Safedocs and not having to make multiple visits to the US Embassy or Consulate will save time and facilitate the paperwork,” added Lachowitz.

Documents that require US notary services can only be notarized by a US registered notary agency. In the United States there are a wide range of options for individuals; however, if you live overseas you are limited to using the paid services at a US Embassy or Consulate. “When it comes to forms that need to be notarized, we are pleased to offer a one stop document shop,” added Terry Van Bibber, CEO of Safedocs.

Safedocs provides hosted, video-enabled, online authentication and notarization services. The company is comprised of attorneys, notaries, engineers, digital transaction management, and financial services professionals with a common goal of transforming the notarization market. Safedocs performs online notarizations across the US and internationally – fast, convenient, and secure.
